MMA 250

Parameter	Value
Input Voltage	1ph ~ AC220V±10%
Input Power (KVA)	9.29
Max Output Current (A)	250
VRD (V)	24V
Duty Cycle @ 40°C	250A@100%
No Load Voltage (V)	75V
Hot Start	YES
Protection & Insulation	IP 23S & H
Dimensions (mm)	457 x 228 x 373
Weight (kg)	12 kg

Key Features :

1.Do it Yourself: Suitable for DIY and professional use, providing flexibility for a wide range of applications.

2.Advanced IGBT Technology: Ensures stable and efficient welding with low power consumption.

3.Adjustable Arc Force: Allows for easy arc striking and improved weld quality.

4.Self-adaptive Arc Force: Automatically adjusts the arc force to make welding easier and improve weld consistency.

5.Anti-Stick & Hot Start: Ensures easy electrode removal and smooth arc initiation, reducing electrode sticking issues.

6.VRD (Voltage Reduction Device): Enhances operator safety by lowering the no-load voltage and prolonging machine life.

7.Stable & Reliable Performance: Consistent operation across varying conditions ensures enjoyable and efficient welding.

8.Auto Voltage Compensation: Automatically compensates for voltage fluctuations, making the machine suitable for use in areas with unstable power supply.

Optional Accessories

- 25 mm2 Pure Copper Cable
- Cable Length Customizable
- Optional: Remote control (cable length up to 50 m)
